

# STEIN - Bentonite - mixing - plant 3,2 m<sup>3</sup>

## Mixing plant with 30m<sup>3</sup>/h mixing capacity

Batching plant for the mixing of liquid and powdery components. The equipment consists of a mixing tank including a mixing scale, an electrical mixing pump, several control valves and connecting piping. The fresh water inlet and the suspension outlet are marked as 4" fast clutch connections. Optionally it is also possible to mount "Storz" connectors. The feed of the powder can be achieved by using a scale and a screw-conveyor.

Colour: RAL 1007

**Documentation:** technical specifications, assembly instructions, service manual, spare part list, safety regulations.

Pump type	1 Piece Viktor-Ducted impeller-Pumpe S 120 DIA-System HUS 100.1-250 BH 260
Pump capacity	260 m <sup>3</sup> /h
Three phase a.c. motor	2 x 20 kW und 1 x 5,5 kW
Electric connection	3 Pieces 63 A CEE
Water meter	Inductive, Farb. Danfoss with preselection counter
Bentonite scale	ARKON, Typ ZSW 1000
External vibrator	ARKON, Typ MR 1/380 V
Dimensions l/w/h [m]	4,40 / 2,40 / 2,70
Weight [kg]	6.400 kg
